

# PENTON MEWSEY PARISH COUNCIL

## THE RESULTS OF PENTON MEWSEY PARISH COUNCIL SURVEY CONDUCTED MAY 2017

### INTRODUCTION

A total of **207** surveys were delivered to the occupied homes in The Pentons. Penton Mewsey, Penton Harroway and Penton Grafton (with the permission of Penton Grafton Parish Council).

To our knowledge there has not been a survey of this kind undertaken for some many years.

The aim of the survey was twofold:

**FIRSTLY**, to find out if we are properly representing the views of the community and if there are things that we should be doing.

**SECONDLY**, to gather information to help us consider our response to The Independent Local Government Boundary Commission to an Electoral review of Test Valley Council Wards that the two Pentons should be moved from their current Penton Bellinger Ward (consisting of Penton Mewsey; Penton Grafton; Appleshaw; Kimpton; Fyfield; Thruxton & Shipton Bellinger ) to join Charlton and to form a new Ward represented by a single councillor.

### RESPONSE RATE:

One survey per household was delivered to 207 occupied households. Each survey consisted of 10 sections, most taking the form of a YES/NO response or required the selection of options. The surveys were anonymous. Questions were asked to determine the views of different age groups and personal information within our community. A deadline of 30<sup>th</sup> May 2017 was set for the return of the summary. In total 55 survey forms were returned representing a response rate of 26%.

### RESULTS AND ANALYSIS:

65% (36 responses) of the surveys returned were from residents living in Penton Mewsey. 11% (6 responses) from Penton Harroway and 24% (13 responses) from Penton Grafton.

The split of the community who received the survey is as follows:

Penton Mewsey	103 surveys delivered
Penton Harroway	45 surveys delivered
Penton Grafton	59 surveys delivered

The results show that Penton Harroway residents returned the least forms. There are many factors that may have influenced this. This area has a high degree of working parents with young families who lead busy lives. However, comments were received that more focus should be made on the Pentons as a whole to ensure the whole community felt involved.

The subject of younger residents appeared throughout the survey and it was felt that not enough was being done to include them in village life.

### RESPONDERS AGE GROUPS:

82% of the responders ticked the box for age 51 – 70. In fact 24% marked specifically that they were over 70. The 31 – 50 age group was represented by 18%. There were no surveys completed within the 21 – 30 age group.

# PENTON MEWSEY PARISH COUNCIL

16% of the number had school aged children living in the village. 95% have a car at the household. 36% work outside of the village.

## **Section 2: THE PARISH COUNCIL:**

We asked how many visited the Penton Mewsey Parish Council website to view the PMPC Minutes and Agenda. The results were slightly in favour of viewing at 54% to 49% that did not. When asked the reasons why not, 12% (7 responses) did not use the internet and 10% (6 responses) stated that they were not aware of the web site.

12% (7 responses) stated that the information was not relevant to them. 7 comments stated that they would like the minutes published in the Village News and 1 comment was made for the agenda to be at least published on the notice boards.

We asked how many people had attended PMPC meetings. 63% (34 responses) stated they had. For those not attending, 10% have no interest in the planning aspects of the meetings and 7% stated they did not know when the meetings took place. 3% said they would not feel welcome.

When questioned if people knew what the Parish Precept was spent on slightly more didn't know than did. There was 51% of 'Do not know'. The majority was happy for PMPC to decide what to spend it on for them; however 14% did state that they did not know how to find out how it was spent or what it was spent on.

## **We asked what we did well / badly / and how we could do better:**

A number of residents thought we communicated well and put the village interests first and on the whole kept everyone informed. The Newsletter is particularly very popular and welcomed although one comment was that it would benefit from having a more positive tone. 1 comment from Penton Grafton said that they appreciate being included within the circulation.

In all 40 positive comments were made concerning communication and how we communicate. 7 comments stated that we care about planning matters; 2 comments stated that we cared about speeding and traffic issues. One comment stated that it was felt we struggled to implement traffic changes. 5 comments stated that in their view overall we were doing well.

It was stated that we did listen to concerns and respond quickly to questions. 2 comments stated that we could be more forward thinking; speak to people more, canvas views more and generally take part more in village life.

7 comments were positive for keeping the village tidy and overall clean particularly the pond area. The litter pick is greatly appreciated as is the planting at Newbury Hill.

## **When asked what we could do better, answers included the following:**

Resolve intermittent sewage smells

Management of council owned land

Maintain pond area

Be more pro active with raising issues to TVBC/HCC

More inclusive of the council houses.

Electronic minutes to those who want them

Dog signs

Action required on traffic issues created by business units

Two comments were received along the lines of 'don't know what you do'.

# PENTON MEWSEY PARISH COUNCIL

It was felt that not enough is done for the younger residents of the Pentons and more could be done to involve them in village life. It was also stated that we could be more proactive in village events and with helping the PRC.

One comment was that their perception was that Chalkcroft Lane is treated as the village

## **Section 3: THE ENVIRONMENT**

We asked what was considered most important in the village. A rating of 5 points for the highest and 1 for the least was given for the marking.

The top score of 69% (38 points) was for Traffic/Speeding as the most important issue.

Secondly, 43% (24 points) was given for Maintaining Footpaths/Bridlepaths and third at 41% (22 points) was concern over Litter.

Jointly with 34% (19 points) was the appearance of the parishes and open spaces with Trees at 33% importance.

Internet cover concerned 31% (17points) of the responders

Not rated quite so highly were off street parking with 16 points, Public Spaces, 15 points and noise 13 points. Aircraft noise and lack of a shop within the village received jointly 17% of responses (9 points).

We asked if the green spaces in and around the village were valued. The result was that they were very highly valued within the community at 100% response rate.

Generally it is thought that the open spaces are well maintained and that the pond area is an important space. Many comments stated that we should keep maintenance as it is now and many felt that it is fine as it is.

We were asked for more tree and hedge planting where possible, with shrubs and flowers being seen as an important addition. The need to balance between wildlife and over tidiness was stressed.

The high scores surrounding the upkeep of the village showed that continuation of the maintenance should be achieved, using other funding if necessary to do so.

The quiet, friendly, safe environment in the Pentons was reported many times and people are seen to enjoy a good pleasant atmosphere and value their neighbours.

The words, warm, friendly, quiet, strong sense of community, tidy rural life were noted by many in this section and repeated within section 10.

## **Section 4: VILLAGE CLUBS & SOCIETIES / FACILITIES:**

The village clubs / societies and facilities favoured very well in the survey with possibly more advertising for interest in the Table Tennis groups and classes held at the village hall. One comment asked for fitness classed during the day.

87% (48 responses) felt that the facilities overall were well maintained. One comment stated that the village hall could do with some money spending on it.

# PENTON MEWSEY PARISH COUNCIL

When asked Are you aware of the following the percentage of YES responses was as below:

GROUPS/ SOCIETIES	YES responses:
PRC	93% (51 responses)
PENTON PLAYERS	91% (50)
TENNIS	85% (47)
TABLE TENNIS	47% (26)
COFFEE MORNINGS	87% (48)
CLASSES AT THE VILLAGE HALL	67% (37)
CHURCH EVENTS	84% (46)

**The Village Hall** is used by 76% of responders. 21% do not use it.

**The church** is attended by 62% of the responders whilst 33% do not use.

**The White Hart Public House** raised very many comments about being closed. 65% would use it if it was opened, whilst 22% did not use it.

**The recreation ground** is valued and used by 64% of responders. 25% do not make use of it.

6 comments were received in favour of a shop being opened again.

The results of the survey may indicate more advertising and promotion of events is required in different ways.

Whilst there are other local groups and resident users of the village hall, not much is known about the opportunity of joining in such activities.

## Section 5: CRIME & SAFETY

### PENTON NEIGHBOURHOOD WATCH

The community knows about the NHW and it is very popular. 100% of respondents were aware of the scheme, with 83% stating that they were already on the mailing list for updates and news. One person asked to be added to the mailing list.

This is good news as paper copies of the NHW items are also delivered to households that prefer this means of communication. This indicates that the overall mailing out of important safety items is covering most of the households in the Pentons.

## Section 6: PLANNING

We asked if the residents felt they were represented to the best of their knowledge on Planning and Planning issues within the village.

85% (47 responses) of Penton Mewsey residents that responded to the survey were aware that the Parish Council review and provide input into every planning application. 18% (10 responses) of Penton Grafton residents were aware. Less than 1% did not know.

55% (43 responses) felt they were represented to the best of their knowledge, with 24% (13 responses) as 'Don't Know.'

78% of respondents stated their interest in planning matters with 11% not being interested. The majority of answers left the decision to the parish council to represent their interests.

# PENTON MEWSEY PARISH COUNCIL

The comments below were raised in relation to planning and the minutes:

*Minutes insufficiently full to judge*

*2 comments - Represented where?*

The awareness of the Village Design Statement and the importance of it was given as 75% with 51% having read the document.

## **Section 7: HOUSING**

We asked what type of housing would be suitable for the parishes. A rating of 5 points for the highest and 1 for the least was given.

There was a general sentiment towards some small development for mixed housing and family homes. A quite strong response was that there are enough houses. Possible sites for infill (new build in gardens) being identified were low.

Affordable housing	43% (23 points)
Small development of mixed housing	47% (26)
Detached luxury properties	25% (14)
Small family homes	54% (32)
Sheltered housing	31% (17)
Only properties built as infill	42% (23)
No further housing required	49% (27)

With the overall response rate age leaning towards the 50 onwards age, it may be considered if the canvassing of younger residents on this subject is required.

## **Section 8: VULNERABLE RESIDENTS**

We asked if the community felt that some kind of volunteer support group for possible vulnerable residents was needed.

A couple of the answers were to the point! "at my age I would need to see a job reference" and "I think I am old enough to be vulnerable"!

Two comments were along the lines of people already helping out each other and 'we are encouraged to be good neighbours'.

It was asked if such a volunteer scheme was needed and if so what type. It was also stated that we should focus on vulnerable and at risk residents. 8 responders felt that there was a need and were interested to volunteer should such a scheme start.

## **SECTION 9: ROADS & TRAFFIC**

Traffic and speeding are of prime importance to many responders. With the proposed Speed Watch Campaign pushing ahead we asked if the traffic at Foxcotte Lane was an important issue to them for the parish. 64% (35 responses) were concerned about the traffic at this location.

When asked if residents think the Parish Council is doing enough about speeding traffic, 74% (41 responses) said yes, with many comments (within the bounds of their influence). 22% (11 responses) thought we were not doing sufficient to help the issues.

# PENTON MEWSEY PARISH COUNCIL

The topic of the possibility of some kind of traffic restrictions and the possibility of 20mph limits within areas was repeatedly remarked on.

Other comments of note that were made:

Reduction of HGV's along Harroway and Short Lane

Better signage for pedestrians at Penton Harroway Lane and other road improvements

Parking outside the recreation ground is an issue and along by the Malthouse area

Tennis parking elsewhere possibly?

Speed bumps

Traffic calming ideas

Newbury Hill especially a traffic worry due to the nursery traffic

Unauthorised traffic from Staddlestones Units.

## **SECTION 10: KEY FEATURES & IMPORTANCE**

Responses from this section were important to assess and draft the Electoral Ward Review due on the 18<sup>th</sup> August to TVBC and the results have been included within that document. A copy of which is included within this Newsletter

Questions relating to community ties, being seen as a rural community were rated at 96% along with natural boundaries such as the Local Gap and green spaces and the preservation of the village.

When asked about shared identities and goals/objectives with each other as 'The Pentons', the results were unanimous at 100% important to everyone.

42% of the community identifies the community of Penton Harroway, Penton Grafton and Penton Mewsey as one.

## **CONCLUSIONS:**

### **SURVEY:**

The survey results have been valuable in helping to identify objectives that we can deliver on and improve on for the community and residents.

Penton Mewsey Parish Council has reviewed the survey responses and each councilor tasked with reviewing separate sections to comment against and advise recommendations. This information has been shared at a special meeting held 10<sup>th</sup> July and reviewed again at the Parish meeting 7<sup>th</sup> August.

The result of the discussions have resulted in an ACTION PLAN which we believe identifies areas that where possible we can make a difference.

These actions are listed in order of importance and relevance. They will be transparent and open. We need to be visible in dedicating resource, time and where ever possible the cost of improvements and follow up on details accordingly.

# PENTON MEWSEY PARISH COUNCIL

## Actions resulting from The Pentons Survey conducted May 2017 & Meeting held 10<sup>th</sup> July 2017 & 7<sup>th</sup> August 2017

The purpose of the meetings were to assess the responses from the survey sent to the Pentons and identify areas that will benefit the villages overall and formulate action point to address.

### **SURVEY COMMENT:**

Traffic was the number one issue mentioned, with many areas identified as problem sites, including Newbury Hill, Penton Lane and Harroway Lane

**ACTION: Investigate the possibilities of 20mph within the villages and how generally a safer environment can be achieved.**

### **SURVEY COMMENT:**

HGV's and unauthorised traffic was stated to be an issue

**ACTION: Review existing traffic signage, highways and roads and recommend any alterations or improvements**

### **SURVEY COMMENT:**

Village maintenance and upkeep was rated very highly and the top scoring in the 'most important' section with an overall total of 62 marks, coming second only to traffic issues.

### **ACTIONS:**

**Survey possible sites for planting trees, shrubs and flowers**

**Consider voluntary action days to keep village vegetation maintained, similar to litter pick day**

**Clear up the area where the old BT phone box is right up and including the bus shelter and possibly landscape**

**Survey the pond area in order to enhance the area and at the same time encourage wildlife**

**Encourage the clearance of vegetation overhanging the lane at the pond area**

**Continue the high percentage of Precept spend on maintenance**

**Spend all the Lengthsman scheme funding for 2017 on village maintenance and improvements (these will be identified and prioritized)**

### **SURVEY COMMENT:**

Better publication of activities are required that are taking place at the village Hall. Specifically Table Tennis and day fitness classes.

The Good Companions and other village group activities that are also held at the hall would benefit from more publicity in order to encourage attendance.

**ACTION: Inform PRC of the survey results**

### **SURVEY COMMENT:**

The survey showed that on the whole people felt that there could be more done to include the younger people of the villages, including young families

**ACTION: Liaise with PRC for the possibility of an and action plan for targeting and canvassing of younger residents views**

# PENTON MEWSEY PARISH COUNCIL

## **SURVEY COMMENT:**

Comments about not feeling included within the community featured highly within the survey

## **ACTIONS:**

**Include a section within the Newsletters for Penton Harroway, Penton Grafton and Penton Mewsey specifically and request input from residents on issues and items that are of concern**

**Have an 'open table' once a month at the coffee mornings**

**Investigate the possibilities of more notice boards. One at the pub, one outside the village hall. Is the notice board at Penton Corner in the right place or is another one required?**

**Organise a 'PMPC walkabout' around specific locations at regular intervals**

## **SURVEY COMMENT:**

PMPC should take a more pro-active role with other groups within the community

**ACTION: Examine the possibilities of joining in more within the PRC**

## **SURVEY COMMENT:**

No communication for Agenda or Minutes other than online.

## **ACTIONS:**

**Publish bullet points of minutes of meetings in the Village News**

**Publish the agenda on notice boards**

## **SURVEY COMMENT:**

8 responses stated that there may be a need to help the more vulnerable people of the community

**ACTION: Consider the possibilities of how to assess the need**

## **SURVEY COMMENTS:**

Separate items that require clarification

**Explanation of precept**

**Explanation of PMPC roles**

## **SEPARATE ACTION:**

**Publish Survey results**

# PENTON MEWSEY PARISH COUNCIL

## ELECTORAL WARD BOUNDARY REVIEW:

The information within the survey has been of great value and interest and has formed our response on behalf of the parish community to the Electoral Ward Boundary Review. It was most useful to know and understand how the community felt about the proposed review and to have their say in the final document. The final draft of the response will be approved at the 7<sup>th</sup> August Parish meeting. The deadline for submission of response to this Review is 10<sup>th</sup> August 2017.

#### **A Definitions**

Penton Mewsey	Penton Mewsey Parish Council and the Parish of Penton Mewsey
Test Valley	Test Valley Council Borough
The Commission	The Local Government Boundary Commission
Recommendations	The Commission's draft recommendations
Submission	Test Valley's submission to the Commission
Survey	The Survey of Residents carried out by Penton Mewsey
The Pentons	The parish of Penton Mewsey and the immediately adjoining part of Penton Grafton

#### **B Summary**

1. Penton Mewsey objects to the Recommendations to transfer Penton Mewsey and Penton Grafton Parishes from the existing Penton Bellinger Ward to form a new ward (number 18 in the Submission) with Charlton Parish Council to be known as Charlton and the Pentons. The grounds of objection are:-

- i There is no community identity or shared interest between Penton Mewsey and Charlton.

# PENTON MEWSEY PARISH COUNCIL

- ii The characteristics of the two areas are entirely different. Penton Mewsey with the immediately adjoining part of Penton Grafton is a distinct rural settlement with many of its own facilities, its own identity, priorities and challenges. Charlton is an indistinguishable part of urban Andover with its separate requirements.
  - iii The results from a recent survey of residents of the Pentons support these conclusions by an overwhelming majority. Appendix Bii (Page 14) lists 38 reasoned objections out of 55 responses. The survey and its results are described below.
  - iv A single ward member will be faced with conflicting interests to represent from the different communities. As one resident aptly put it:  
*“Such a Councillor would ‘stand astride’ the green gap, with a foot in each of two different environments...  
Street lighting is just one obvious example of very different attitudes, expectations and expenditure in the two areas. Such a Councillor would find representation of a whole Ward with a single perspective extremely difficult.*
- 2 As an alternative, Penton Mewsey proposes the transfer of the Penton Mewsey and Penton Grafton Parishes to the proposed Bourne Valley Ward with an adjustment to that Ward by returning one polling district and part of another (Alamein No1 and Smanell north of the Roman Road) to Andover Romans which will improve the electoral equality of that ward. Charlton would be transferred either to Andover Harroway Ward or part of it, namely Harroway Polling District no 4. All these proposals meet the equality of electorate criterion and have regard to community interest requirements.
- 3 If the alternative proposals set out in 2 above are not acceptable, Penton Mewsey argues that the lack of community interest with Charlton outweighs the lack of electoral equality in either leaving the two Penton Parishes as part of the former Penton Bellinger Ward or moving them to the Bourne Valley Ward without adjustments to that ward.

## **C Boundary Commission’s Guidance on the conduct of the Review**

- 4 The following quotations from the Commission’s published guidance are set out to help understand the relative importance of the three criteria of electoral equality, community identity and effective and convenient local government. Also to help understand how community interest might be assessed.
- 5 The publication entitled “How to propose a pattern of wards contains the following in its introduction:  
*“As such, the Commission is much more likely to accept your proposals if they are based on one or more of the criteria (added note – the three criteria listed above in 4) above.”*
- It is relevant to note the reference to “one or more” (not all) of the three criteria.
- 6 Page 5 contains the following:  
*“Occasionally, it will not be possible for us to put forward a boundary proposal that clearly meets all these principles. In fact, the statutory criteria can sometimes contradict each other, for example where a proposed ward might reflect the shape of local communities but delivers poor levels of electoral equality. In these cases, the Commission will use its discretion – and the quality of the evidence presented to it - to come to a conclusion.”*
- 7 Page 6 the following:  
*“Although we strive for perfect electoral equality for all wards or divisions, we recognise that this is unlikely to be exactly achieved. If you propose a boundary that has many more, or fewer, voters in it than the target we set in the paragraph above, we will need to see evidence that such a variance is*

# PENTON MEWSEY PARISH COUNCIL

*justified on the grounds of our other statutory criteria set out below. The more your proposal causes councillors to represent many more, or fewer, voters than the average, the more persuasive your evidence will need to be. You will need to explain to us why your proposal reflects the interests and identities of local communities and/or the arrangement would provide for effective and convenient local government."*

8 This advice clearly accepts that community interest is capable of being more important and persuasive than electoral equality.

9 The Commission's document entitled "Electoral Reviews Technical Guidance "dated April 2014 contains the following:

*"4.35 However, in practice we do not see reviews resulting in wards of mathematically equal size. This is because the approach to electoral equality must be tempered by other considerations which generally reflect the particular characteristics of an area under review, and its communities. This recognises that council members represent individual electors and collective communities."*

10 This advice again supports the view that community identity can outweigh the need for electoral equality.

11 The following extract gives advice on the test of community identity:

*"4.37 Community identity and interest is harder to define than electoral equality for which there is a simple mathematical test. Often, it cannot easily be measured, and can mean different things to different people. It is essential, therefore, that those taking part in a review who make a case on the basis of community identities and interests can explain to us exactly what the community is and, more importantly, what defines it and marks it out as distinct from others.*

*4.38 For some, community identity could be defined by the location of public facilities such as doctors' surgeries, hospitals, libraries or schools. Research on community identity supports this view but notes that such arguments cannot be considered in isolation. It will certainly not be the case that merely saying that such facilities exist can justify a community identity argument. We would be looking for evidence that such facilities stimulate or provide a focus for community interaction: this would be distinct from their role as points of service delivery to individual citizens."*

12 This guidance on community identity will be addressed in later sections. Points to note though are the reference to the fact that the existence of facilities alone does not in itself establish a community identity argument and the need to define the community.

## **D Test Valley's Submission**

13 The Submission contains the following analysis of the Pentons and Charlton:

*"Whilst the village of Charlton is contiguous with Andover, it is felt that Charlton stands apart from the town with its own separate, individual identity. The Andover Vision partnership's work to create a 20 year vision for Andover does not include the village of Charlton and Charlton is currently undertaking its own Neighbourhood Plan. Therefore, Charlton's sense of place does not lend itself to inclusion in an urban ward.*

*The villages of Penton Mewsey and Penton Grafton are collectively known as The Pentons, and share a Village Design Statement that was adopted following consultation with residents of both Penton Mewsey and Penton Grafton. Both villages are surrounded by arable farmland, and share a village website and Village Design Statement. The smaller Penton Grafton does not have a shop, meaning that residents use the local stores in Penton Mewsey and Charlton, as do residents in the hamlet of Clanville. The area of Weyhill village which is included in the proposed ward is in Penton Grafton parish, and is home to the Penton Grafton Parish Council offices. Charlton Lakeside outdoor centre provides extensive sports and leisure centre facilities that are used by residents from across the*

# PENTON MEWSEY PARISH COUNCIL

*proposed ward. The Church of England churches within the proposed ward, at Charlton and Penton Mewsey, are linked by the Benefice of Pastrow.”*

- 14 Penton Mewsey does not believe that these statements are altogether accurate nor do they support the joining of the Pentons with Charlton for the following reasons:-
- i It is acknowledged that Charlton is physically part of Andover’ (*‘contiguous’*). This fact is confirmed by physical inspection when travelling to Charlton in any direction from Andover. It is inconsistent therefore to state that Charlton *‘stands apart from the town’* which is in any event a phrase which lacks precision and could apply to a number of areas not within the actual Town Centre.
  - ii The preparation of a Neighbourhood Plan merely reflects the existence of a parish boundary and is not a determinative factor. The same applies to Andover Vision.
  - ii Charlton is urban in nature and does not lend itself to combination with the two entirely rural parishes of the Pentons. The residents of Charlton constitute a community entirely different in nature from the residents of the Pentons by virtue of the different built environments and the nature of local and community facilities. Conversely, the rural Pentons do not lend themselves to combination with urban Charlton.
  - iii New housing development comprising 85 units is currently under construction at Goch Way in Charlton. There are pressures for further development of over a thousand houses identified by developers in the Strategic Housing Land Availability Assessment although the Local Plan has not made specific allocations at this stage. Such an additional number of houses would clearly distort the current electoral equality figures and emphasise and underline the urban nature of Charlton.
  - iv The results of the Survey show that the use of the Charlton Leisure facilities by Pentons’ residents is of no significance. The centre is only used by 13 % of residents; 84% use other locations or none at all. Other relevant information from the survey is set out below(Section F) (Page9) which includes shopping patterns and other facilities. There is no shop in Penton Mewsey as suggested in the Submission; the small one attached to the White Hart Inn in fact closed in August 2013.
  - v In relation to Pastrow Benefice following comment from the survey carried out by Penton seems relevant:  
*‘In my experience with Charlton joining the Pastrow benefice they are very urban in their outlook and have no concept of village life. If we join with them we will gradually be merged into an urban thinking and the gap between us and Charlton will be closed.’*
- 15 Other comments from the Survey about the proposed merger with Charlton are set out in Appendix A (page13)

## **E Boundary Commission’s Recommendation**

- 16 The relevant part reads as follows  
*“41. Grafton Parish Council and Thruxton Parish Council, the latter writing on behalf of all the parish councils in the current Penton Bellinger ward, objected to the Council’s proposed Charlton & the Pentons ward. They argued that Charlton was part of Andover and should not be combined in a ward with the rural Penton villages. Both submissions pointed to the gap between the two settlements as evidence of the different communities.*  
*46. In relation to the proposed Charlton & the Pentons ward, having visited the area we accept the argument of the two parish councils that there is little separation between Charlton and Andover and there is quite clearly a physical gap between Charlton and the Pentons. However, we also noted the Council’s argument that Charlton considers itself to be a separate community from Andover, is*

# PENTON MEWSEY PARISH COUNCIL

*creating its own neighbourhood plan and that residents in the Pentons use shops in Charlton as well as Charlton Lakeside, an outdoor leisure centre. Also, given the high electoral variances in the three wards to the east, south and west of Charlton & the Pentons, changes to the Council's proposal would have a substantial knock-on effect on other areas, and we have no evidence to support such changes to those areas.*

*47. It is clear from the submissions we've received that there are different views about the make-up of communities in this part of the borough so we would be particularly interested in alternative proposals for this area that reflect community identity and have good electoral equality."*

- 17 It is significant that the Commission accepts that Charlton and Andover are not physically detached but that the Pentons are clearly separated by a 'physical gap' from Charlton. Further that the Commission recognises that a key issue in relation to this part of the Proposal is community identity ('different views about the makeup of communities'). In effect, the Commission is inviting alternative proposals which address this question ('would be interested in'). The Commission also highlights the effects of changes to its proposals upon the three wards to the east, south and west (but not to the north) This point is taken up in Penton Mewsey's alternative proposal.
- 18 As indicated above New housing development comprising 85 units is currently under construction at Goch Way in Charlton. There are pressures for further development of over a thousand houses. Identified by developers in the Strategic Housing Land Availability Assessment.
- 19 On a point of detail, as indicated above use of Charlton Lakeside by Penton residents is not significant. Shopping patterns will be discussed below in the context of the Survey but it is to be noted that Charlton is not the major centre for facilities for the residents of Penton Mewsey or the Pentons.
- 20 The key point is that not only does Penton Mewsey not have a community identity with Charlton but as explained below it has very much its own special identity.

## **F Penton Mewsey's Objection**

- 21 The following features characterise and evidence the community of Penton Mewsey and the Pentons and their separate identity. Their existence and activities support the view that The Pentons have their own identity separate from Charlton.
- i They are rural settlements predominantly surrounded by arable and grazing land, woodland and open spaces.
- ii The Pentons enjoy the following community facilities among others -  
The Penton Recreation Centre, a local trust, responsible for the Village Hall, Recreation Ground including the Cricket Field, Tennis Courts, Sports Pavilion and children's play area. The Centre organises a number of village events, including quiz nights, summer parties, hog roasts, skittles evenings and auctions of promises.  
The Penton Cricket which includes a number of local residents as players and maintains the outfield and square.  
The Penton Tennis Club.  
The Penton Players, a local based and supported amateur dramatic society.  
Holy Trinity Church.  
An active Neighbourhood Watch Scheme.  
The Village News.  
The Companions, a social club which organises village outings and meals.

# PENTON MEWSEY PARISH COUNCIL

Penton Mewsey is the Lead Parish for a cluster of 13 rural parishes formed as part of the Hampshire County Council's Lengthsman Scheme which provides funding for highway , footpaths , open spaces and associated maintenance in rural areas.

- 22 The following statistics and facts about the facilities used by residents of the Pentons emerge from the Survey. A total of 207 forms were distributed of which 55 were returned completed.

For, shopping, doctors and leisure the survey identified the following patterns

	Shopping	Doctors	Leisure Activities
Andover Town Centre	43.	15.	8.
Charlton	39.	34.	7.
Weyhill.	26.	1.	4.
Ludgershall	5.	5.	12.
Elsewhere	28.	1.	34.

At least one of the doctors surgeries listed under Charlton is in fact in Andover which would make the percentage going to Andover 89%.

- 23 In relation to two specific questions, residents expressed their views on the question of community identity. The questions and verbatim comments are listed in Appendix A. These demonstrate overwhelmingly that residents of Penton Mewsey do not identify with Charlton. Ai contains 12 references to community and ii has statements emphasising the urban nature of Charlton. Appendix A iii illustrates the use and importance of exclusive Village Facilities.

- 24 Conversely for Charlton Penton Mewsey is not aware of what if any detailed evidence has been put forward or considered to establish that Charlton residents have any affinities or ties with Penton Mewsey.

## **G Penton Mewsey's Alternative Proposals**

### **25 Bourne Valley Ward**

Move Alamein Polling District No1 and part of Smannell north of the Roman Road to Andover Romans Ward and add Penton Mewsey and Penton Grafton Parishes to the Bourne Valley Ward.

### **26 Andover Harroway Ward.**

Combine Charlton Parish with the whole of Andover Harroway Ward or part of it –namely Polling District Harroway No 1 -if 4 member wards are not acceptable. There is no upper limit in legislation regarding the number of councillors that may be returned from each ward or division. The Commission's view appears to be that wards or divisions returning more than three councillors result in a dilution of accountability to the electorate. Although there are currently no principal authority wards or divisions in England returning more than three councillors, there are a number of four member wards in Scotland.

- 27 Alternatively, Penton Mewsey invites the Commission to use its experience to produce electoral equality based on the second limb of the alternative proposal or place community identity above electoral equality as suggested at paragraph 3 above.

# PENTON MEWSEY PARISH COUNCIL

28 Appendix B sets out the calculation of electorates resulting from the proposals in paragraphs 25 and 26.

## H Conclusion

29 The Commission recognising the existence of conflicting views over its recommendation invited alternative proposals. Penton Mewsey has responded constructively and positively with an objection based on firm evidence and a workable alternative.

30 This objection was submitted in draft to Penton Grafton Parish Council who has confirmed that the objection and its alternative proposals have that Council's full support and endorsement which it is anticipated will be confirmed directly to the Commission.

*The village and people*

*Community spirit, open green spaces and footpaths and a cul de sac of Chalkcroft Lane.*

*Village, rural community*

*Location, pretty and well kept village, nice people*

*Countryside but close to amenities*

## ii PERCEPTION OF CHARLTON.

The following are residents' answers to the following question :

Do you think the Pentons have any identity or affinity with Charlton or community interest? 43 answered 'no' and 4 'yes'

If NO tell us why you think this.

The following is the list of reasons given.

- 1 *In my experience with Charlton joining the Pastrow benefice they are very urban in their outlook and have no concept of village life. If we join with them we will gradually be merged into an urban thinking and the gap between us and Charlton will be closed.*
- 2 *Charlton does not appear to be a village but is a part of Andover and the Pentons are very different in character.*
- 3 *Charlton seems to be in the process of being incorporated into Andover.*
- 4 *Charlton is so obviously a suburb of Andover.*
- 5 *Charlton has been consumed by Andover with all the development.*
- 6 *Charlton has lost their gap with Andover and is now being developed. PM has no historic ties with Charlton unlike PG. If we become integrated with Charlton it would be one more step to losing our own distinct rural identity.*
- 7 *Charlton is urban; the Pentons are a separate community.*
- 8 *Charlton is urban, contains about 4,000 people and is no longer a country village. It is dominated by large housing estates.*
- 9 *Charlton is effectively urban and unlike the Pentons.*
- 10 *They are part of Andover.*
- 11 *They are effectively an extension of Andover. No added value. We are already a large enough ward.*
- 12 *Charlton is overspill housing for Andover and not a true village.*
- 13 *Both have distinct identities.*
- 14 *The character of Charlton is very different from the Pentons.*
- 15 *Village vis a vis urban.*

## PENTON MEWSEY PARISH COUNCIL

- 16 *Charlton is not a village and has low community cohesion. The Pentons are distinct, identifiable as a village and community.*
- 17 *Charlton and Penton are geographically separate. Growth of Charlton likely to have a negative impact on Pentons.*
- 18 *Appear different types of community (more urban) so likely to have other priorities.*
- 19 *It is not a village as Penton is very different.*
- 20 *Definitely not. We are a rural community and a conservation area.*
- 21 *Supermarket, chemist, dentist, doctors all at Charlton town.*
- 22 *Charlton is an urban/suburban community. The Pentons are rural villages.*
- 23 *Important to keep green gap between Pentons& Charlton.*
- 24 *Charlton is joined to Andover, the mile or so of green space needs to be preserved at all costs.*
- 25 *We are surrounded by green fields which makes us unique at the moment. Let us keep it that way.*
- 26 *By history though might have if grouped together in some way.*
- 27 *Pentons are villages, Charlton is not.*
- 28 *Penton rural and wish to remain so. Charlton sprawl. Infilling to be contained at all costs.*
- 29 *Charlton has very different feel and focus.*
- 30 *Charlton is urban conurbation being really an enclave of Andover which has lost its identity.*
- 31 *Charlton is its own community. Penton is its own community.*
- 32 *Totally different type of community.*
- 33 *Charlton is more urban sprawling area and is part of Andover while the Pentons are rural and have a sense of community and belonging. They appear to have very different characters so do not have an identifiable affinity.*
- 34 *It's growing all the time and is becoming part of Andover. Keep Penton Rural.*
- 35 *Penton is a rural community, we are not part of Andover and we want to maintain the local/strategic gap between Penton and Charlton.*
- 36 *Charlton is the beginning of the town. We are the beginning of the countryside. Choose*
- 37 *Charlton if you want town life. Choose Penton and you are choosing rural life.*
- 38 *They are a town, Penton a village.*

### iii STATISTICS FROM SURVEY.

#### VILLAGE CLUBS & SOCIETIES / FACILITIES:

The village clubs/ societies and facilities fared very well in the survey with possibly more advertising for interest in the Table Tennis groups and classes held at the village hall. One comment asked for fitness classed during the day.

87% felt that the facilities overall were well maintained

When asked Are you aware of the following the percentage of YES responses was as below:

GROUPS/ SOCIETIES	YES responses:
PRC	93%
PENTON PLAYERS	91%
TENNIS	85%
TABLE TENNIS	47%
COFFEE MORNINGS	87%
CLASSES AT THE VILLAGE HALL	67%
CHURCH EVENTS	84%

The Village Hall is used by 76% of responders. 21% do not use it.

The church is attended by 62% of the responders whilst 33% do not use.

The White Hart Public House raised very many comments about being closed. 65% would use it if it was opened, whilst 22% did not use it.

# PENTON MEWSEY PARISH COUNCIL

The recreation ground is valued and used by 64% of responders. 25% do not make use of it.
